Bearings from 4 meter Blockhouse 13	
To 4 The Wessex	310
To 5 The bus	300

This illustration is provided to help you navigate Stoney Cove. The compass bearings shown are from and to the most popular underwater features.

Rescue and First Aid Procedures

Stoney Cove staff will respond at once to any emergency, either in or out of the water. In the event of an accident, staff immediately.

What to do if your buddy gets into difficulty...

Underwater

Wherever possible, help them to the surface.

On the surface

Raise the alarm at **ONCE** by blowing a whistle, shouting and waving.

At the water's edge

If you see someone in trouble, raise the alarm immediately. While someone alerts staff in the shop, stay where you are, monitoring the position of those in the water.

Important Notice

Always follow the Stoney Cove recommendations for responsible diving and the safe diving practices of your diving association, eg BSAC, PADI, SAA, etc.

Carry your Diverlog registration card with you at all times, even in the water.

Do not dive solo. If you become separated from your buddy ascend as soon as possible.

You must meet the minimum age requirements of your diving association and be **no younger than 12 years old.** Junior participants must be closely supervised by qualified adults.

- All diving schools, instructors and other divers who use Stoney Cove in an at work situation, i.e. receive payment or some other form of favour or reward must operate within the requirements of the Diving at Work Regulations 1997.
- Wear a buoyancy aid at all times.
- Plan your dives with consideration to our regulations, recommendations and information provided.
- Diver Propulsion Vehicles can only be used with extreme caution, but not in poor visibility
- Do not dive outside the displayed opening times.
- When using a rebreather, use either a Surface Marker Buoy throughout your dive or use a delayed SMB to mark your ascent.

- Sodalime used in rebreathers must be disposed of away from the site.
- **Do not run, shout, wave or blow whistles unless there is an emergency.**
- Do not damage or remove pieces from the objects of interest in the water, or cause any harm to the wildlife above or below the water.
- Keep the volume of car radios down.
- Do not leave children unsupervised.
- All dogs must be kept on a lead—please clean up after them.
- Please use the litter bins and empty hot barbecue coals into the receptacle provided.

- Do not obstruct any roadway or access and have respect for each other and our neighbours.
- The decanting of oxygen or the use of portable compressors are not permitted anywhere on the site.
- Please follow all directions given by Stoney Cove staff.

Any diver or contractor who contravenes the Stoney Cove Regulations is likely to have their access to Stoney Cove suspended or cancelled.
